Dear Church Family,

I hope you have had an opportunity to visit the updated First Baptist Church website. You can find the site by accessing the current domain name *and* through our new domain www.firsttuscaloosa.org. Please add this site to your favorites and visit it often as updates regarding church events and happenings will be made nearly every day.

As a part of our renewed efforts to communicate better with you electronically, we will also begin to send you web-based links about the church via email every week.

Chief among these will be a link to our weekly newsletter, *the First Servant Weekly*. You will also be notified of other important First Baptist Church publications by web-based links through email as those publications are completed.

Soon after we begin these weekly emails, we will as a matter of practice stop sending *the First Servant Weekly* to you through the U.S mail and we will ask you to view it and if needed print it from your computer.

Implementing this initiative will enable you to receive *the First Servant Weekly* on **Wednesday** of each week. The Wednesday delivery is much sooner than the current home delivery date of Friday. In addition, distributing *the First Servant Weekly* through email will save the church thousands of dollars in postage cost over the course of a year's time.

Church members who do not have access to email will continue to receive *the First Servant Weekly* and other church publications via U.S mail as they always have.

If you have email and you still want to receive *the First Servant Weekly* via U.S. mail, please reply to this email indicating so.

The First Servant Weekly will only be delivered via email unless we hear from you.

We are excited about the efficiency and improved communication this new practice will bring to you as a church member. We are also pleased that we are implementing a practice that will result in allowing us to use more resources to win people to Jesus Christ!

In His Service,

Kris Sullivan

Magnify. Multiply. Minister.
